

Adapting Adult Education to the 21st Century

2024-1-ES01-KA220-ADU-000245715

Newsletter #1

A new initiative begins

On April 3rd, 2025, the **XXIAdults project** officially kicked off in Valladolid, Spain! Hosted by **Diputación de Valladolid**, this first **Transnational Project Meeting (TPM)** brought together partners from seven countries with a shared mission: **to reimagine adult education for the digital age**.

From tackling digital exclusion to strengthening governance in education centres, the project is set to empower educators and adults aged 50–75 through modern tools, inclusive strategies, and European cooperation.

Who's Involved?

The meeting welcomed teams from:

- Spain
- Greece
- Poland
- Portugal
- Germany
- Bosnia & Herzegovina

What Did We Work On?

Getting Organized

We aligned on project goals and timelines, ensuring all partners are equipped to take action in their local contexts.

Listening First: Understanding Needs

The first major step? Designing and validating **questionnaires** to understand the current realities of adult education centres across Europe.

Spotlighting What Works

We're now collecting **good practices** in adult education—focusing on:

Digital learning strategies

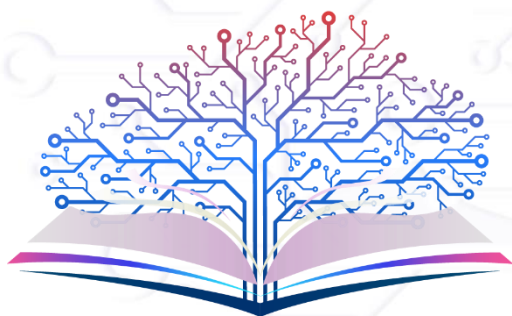

Innovative teaching approaches

Each partner will also identify **two centres of excellence** willing to share their experiences.

What's Next?

- **Survey rollouts** in each country
- **Creation of a European good practices database**
- **Development of the XXIAdults Training Guide**
- **Next meeting: Sarajevo, Bosnia & Herzegovina | September 29, 2025**

A Warm Thank You

We extend our heartfelt thanks to Diputación de Valladolid for hosting the kickoff meeting with professionalism and hospitality. The energy and commitment shared among partners promise a powerful journey ahead.

Stay Connected

Follow our progress as we work toward making **adult education more inclusive, digital, and forward-looking.**
